**You want the best for
your child - we do too.**

an integrated approach

Since 2011 Liberty POST has offered its clients a wide range of high-quality, individualized services. Originally just a speech-language practice in Syracuse, we now provide an array of clinical services throughout New York state, as well as New Jersey. We employ over 400 professionals who work and collaborate together to provide the best possible support for you and your family.

clinical services and specialized programs

Occupational Therapy

Children gain the functional skills needed for independent play, learning, motor skill development, self-care, and socializing in their home, school and community.

Special Education

Our teachers are specially trained to work with students who have a wide range of unique learning needs. These include cognitive, emotional, social, physical or behavioral aspects of learning.

STARS Preschool

Our preschool encourages learning and language development through music, movement, and play with a responsive approach that nurtures the love of learning in children with and without special needs.

Physical Therapy

We provide strengthening and endurance exercises, movement and mobility activities as well as support with assistive technology, adaptations of daily care and routines, equipment fitting and assessment.

Eligibility Evaluations

Our team of professionals provide thorough evaluations to help determine your child's eligibility for individualized services that support their growth and development.

Service Coordination

Our team uses their knowledge and access to community resources and service delivery systems to advocate for children, ages birth to three, diagnosed with language and motor delays, autism, cerebral palsy, Down syndrome, muscular dystrophy, and deafness.

Speech/Language Therapy

Children are supported not only in their communication skills, but also with feeding and swallowing difficulties, voice disorders, and social and pragmatic language growth.

PROMPT Speech Therapy

PROMPT is a Speech and Language technique that is different than traditional treatments. Our trained therapists use motivating words and their hands to help children properly develop the production of speech sounds and words.

Music Therapy

Through instrument play, vocal improvisation and movement to music, our therapists support a child's development in a unique and fun way.

Nutrition Support

The goal of our Early Intervention (EI) nutrition services is to provide the family and child with the optimal nutritional quality for life. Good nutrition helps fuel the brain and body to do great things!

Social Work

Our social workers play a unique role, as they not only work with the child but also the whole family, the school system and community agencies to create a multi-disciplinary team that allows for the removal of barriers.

**we support children
every step of the way...**

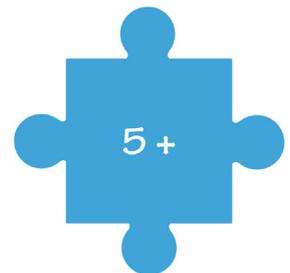

Early Intervention

The first years of a child's development are so important for creating a strong foundation for their growth.

Preschool Special Education

Providing the right supports for a child in preschool can foster success in future years.

School Age Children

Helping children reach their full potential extends beyond preschool.

**...in their homes, in school
and at our center.**

If your child is eligible, services can be covered by your school district or the county you reside in. We also accept insurance, and private pay.

Find us on 

our mission

At Liberty POST, we provide state of the art speech–language pathology, occupational therapy, physical therapy, music therapy, social work, nutrition, service coordination, care coordination, evaluations, and special education. We believe in helping children and families overcome their obstacles and in advocating for their wellbeing. We provide assessment, treatment, information and a commitment to do whatever it takes to give our clients the care they deserve.

At Liberty POST, we recognize that every child has their own unique differences and sometimes those present challenges. It is our privilege to honor and embrace those differences while creating opportunities for success. We believe in people, ALL people, and it is fulfilling for us to help them realize their dreams.
